## Well prepared means being well covered

Vol.2 sanitary goods version

## Vol.2 In the right place!

By Mari TAKEUCH

If you have cloth masks, you should have 1-2 boxes of spare disposable masks.
Decide where to store both of them.

[Sanitary goods in short supply due to the spread of infection to date]

It is recommended that you stock up on the above sanitary goods on a routine basis. Other sanitary items that are recommended to stock include first aid kits, diapers, sanitary products, and emergency toilets.

The shortage of masks and disinfectants during the first wave of COVID was serious. These shortages also occurred during the 2009 H1N1 influenza pandemic. In this second part of our series, we will look at the preparation of sanitary goods.

## Can you find your masks straight away?

My house is cluttered with various consumables

YES

Reconsider what you have and where you put it!!

**₩** NO

I'm always looking for many things

YES

Decide on a place for things

**₩** NO

My masks are in a set place

You're organized!

Being organized is more important for people who:

- ☐ Have large families
- $\square$  Are usually busy and don't have time to tidy up

Collect in a basket and

of
baskets
that
allow you
to see
the
contents

The basics of tidying up are to keep like with like, separate different things, and put them in their proper place. The smaller the item, the more consciously you should decide where to put it!

## Don't worry on your own when you have a problem Call the "Consumer Hotline" 188!

We will guide you to local consumer affairs centers and local government consumer affairs inquiry counters.
